CAL117  
NFPA260

Application. SUITABLE FOR CONTRACT /HOSPITALITY UPHOLSTERY

Maintenance. Please refer to our CARE GUIDE L1 for full care & cleaning details, available online or by request.

Environmental. These leathers are responsibly sourced and are by nature a by-product of the food industry which would otherwise be discarded. Tanned in Italy they are fully REACH compliant, halogen free, PFC free, containing no harmful substances. Leather is both natural and long lasting, repairable and at the end of its life recyclable and biodegradable. For more information visit [leathernaturally.org](http://leathernaturally.org)

Colour matching. Due to leather being a natural product colour and texture variations will occur. Each hide will have its own uniqueness, natural marks and variations which is a part of real leather and should not be regarded as a defect. Special colours available, minimum quantities apply, please contact us for details.

Samples shown on this card are a guide and current production may differ marginally. We reserve the right to alter specifications without notice. FR testing is predictive and customers must ensure their complete furniture meets the necessary standards. All values and measurements are approximate.
